Exchange for NetSuite

ORACLE + NETSUITE

About Kiltwalk

The Kiltwalk is a unique Scottish charity backed by the Hunter Foundation, who bring together some of the nations best loved charities. It enables thousands of people across Scotland to fundraise for their choice of Scottish Charity. Supporters raise money by taking part in challenging but fun sponsored walking events in four locations across Scotland.

Reasons for choosing Eureka Solutions / NetSuite

Kiltwalk needed an advanced and flexible solution which could be expanded to meet their requirements. They required a system with 360° visibility to be able to report information to their charity partners and integrate registration and fundraising information with a solution that could handle their finance and CRM requirements. Qualifying for Not for Profit donated software from NetSuite was critical to their decision.

Real-time access to
accurate data

Information shared
with partners
faster

Improved
efficiency

Business Challenges

As a start up, Kiltwalk had utilised a combination of manual processes and excel spread sheets to

- Track donations, income and expenditure
- Track the above against events, stock management and operations

With growth, this was no longer an adequate solution.

Results

Since enlisting the help of Eureka Solutions to implement NetSuite

- Kiltwalk describe themselves as a much more efficient company
- Information is supplied much quicker
- With 360° visibility, Kiltwalk are able to provide accurate data on an ad hoc basis

“It’s been a huge time resource saver for us and has allowed us strive towards that goal to deliver that world class service for all parts of our business.”
